Re: Extension of Term for the Spectra Energy National Maintenance Agreement:

Dear Member:

Members of the National Maintenance Council met with representatives of the Pacific Region Maintenance Council and Myco/DRE Services 2005 Ltd., at the Delta Vancouver Airport Hotel, Vancouver on May 28, 2008. The parties determined to extend the terms of the National Maintenance Agreement covering Spectra and projects listed in Appendix 'C' of the Agreement for a further 12 months to May 31, 2009. This decision is covered in a Memorandum of Agreement signed by the unions which compose the PRMC, the National Maintenance Council and the Company.

This measure was taken in order to provide continuity and stability under our agreement as the CMAW application works its way through the legal process.

Yours truly,

S. M. Smillie,
Executive Director
