Re: Extension of Term for the Spectra Energy National Maintenance Agreement:

Dear Member:

Members of the National Maintenance Council met with representatives of the Pacific Region Maintenance Council and Myco/DRE Services 2005 Ltd., at the Westin Bayshore Hotel, Vancouver on May 12, 2009. The parties determined to extend the terms of the National Maintenance Agreement covering Spectra and projects listed in Appendix 'C' of the Agreement for a further 12 months to May 31, 2010. This decision is covered in a Memorandum of Agreement signed by the unions which compose the PRMC, the National Maintenance Council and the Company and extends the collective agreement with no changes for the time period noted.

Yours truly,

S. M. Smillie,
Executive Director
